Advanced Purification Sanitizes Air at the Marion Shelter Program

Marion, Ohio (November 10, 2008)—The Marion Shelter Program would like to thank Advanced Purification for their recent treatment of our facilities. Advanced Purification is a locally owned and operated business specializing in improving people’s lives by creating a cleaner, healthier indoor environment. By providing this sanitization service to the Marion Shelter Program, they improved the air quality inside the shelter for all of our residents.

What we noticed immediately was that the shelter smelled so much cleaner after the service, like the air outside after a rain storm. The process truly did an amazing job of getting rid of the odors in the home. Also, the allergy sufferers in the home noticed a big improvement as well. In short, the Advanced Purification process delivered what they promised, a cleaner, healthier living environment for our residents!

For more information on Advanced Purification and their proprietary SanusAer treatment process, please contact them at 387-PURE (7873) or visit them on the web at www.advanced-purification.com.

If you would like more information on the Marion Shelter Program or to learn how to get involved, contact Mark Lovett, Executive Director at 740-387-4550.
