Advanced Purification celebrated its grand opening with a ribbon cutting ceremony at the Chamber of Commerce with Co-Founders Dan McGrady and Brooks Brown. They were joined by the Chamber of Commerce Ambassadors and members of their advisory board. Advanced Purification is introducing a new service of home sanitization designed to rid homes of indoor pollutants by applying shock treatments of nature's most powerful purifying agent: activated oxygen. Its SanusAer treatment process is a "green technology" scientifically proven to deodorize, disinfect and destroy the pollutants that poison the indoor air including unpleasant odors (smoke/pet), allergens, biological pollutants, VOCs and mold and mildew. For more information, call 740-387-PURE (7873) or visit www.advanced-purification.com
